FIG. 13A

A cross-sectional view of a multi-layered structure 160. The structure consists of a central core 163, which is a stack of alternating layers 164 and 166. This core is enclosed within a frame 161. The frame 161 is composed of a top layer 162 and a bottom layer 165, which are separated by vertical dividers 167. The entire assembly is surrounded by a hatched outer boundary.
